<code>

Define some text as computer code
in a document

```
<h1>Slobodan Gajic</h1>
```

```
<p>Use the HTML <code>code</code> tag so  
that the text stands out and doesn't blend  
in the paragraph text.</p>
```

Slobodan Gajic

Use the HTML `code` tag so that the text stands out
and doesn't blend in the paragraph text.

Swipe →

<s>

Mark up text that is no longer correct

```
<h1>@codewithsloba</h1>
<p><s>Thank you for 20k!</s></p>
<p>THANK YOU FOR 30K!</p>
```

@codewithsloba

~~Thank you for 20k!~~

THANK YOU FOR 30K!
